PROFESSIONAL EXPERIENCE

WerQ! AI   Remote
Full-Stack Software Engineer   March 2025 – Present

- Architected and developed a responsive user interface with React, TypeScript, and Tailwind CSS, improving overall application performance and user experience.
- Integrated a headless CMS and contributed to back-end development, streamlining content management workflows and decreasing content update times by 30%.

Advance Music Technologies LLC / Sonicbids LLC   Remote
Lead Full-Stack Software Engineer   August 2024 – February 2025

- Spearheaded the end-to-end development of a full-stack web application using Next, Redux, TypeScript, Node.js, Express, and PostgreSQL, achieving MVP status single-handedly.
- Optimized frontend performance through code-splitting, lazy loading, and memoization, resulting in a smoother user interface.
- Designed and developed RESTful APIs for seamless client-server communication, reducing API response times by 25%.
- Architected robust state management solutions with Redux and Redux Toolkit, including custom middleware and asynchronous thunks, enhancing application performance by 30%.

Artificial Compute   Remote
Consulting Software Engineer   June 2023 – July 2024

- Solely designed, built, and implemented features for customer-facing web applications using React and Redux, demonstrating strong leadership and decision-making skills. This resulted in user-friendly, state-managed interfaces and a 30% increase in user engagement.
- I improved the user experience and product design by implementing Microsoft Clarity, which provided valuable user data to UX researchers. Additionally, I customized and installed the Intercom chatbot to provide adaptive support based on the user's login status, resulting in a 15% reduction in customer support tickets.

Rodeo Logistics, LLC   Austin, TX - Remote
Software Engineer / Quality Assurance Engineer   December 2021 – February 2023

- Independently developed and implemented automated end-to-end testing using Cypress, enhancing testing efficiency and reliability, increasing test coverage by 60%, while maintaining comprehensive documentation for scripts and processes.
- Identified and documented bugs through rigorous regression testing, maintaining detailed tickets for bug reproduction and resolution, reducing average resolution time by 30%, while also managing comprehensive technical documentation to support future project reference and continuity.

DevWorks   Austin, TX
Software Developer   March 2021 – December 2021

- Acted as project manager, overseeing multiple developers working on diverse projects with various stacks, ensuring timely completion and maintaining code quality standards, achieving a 95% on-time delivery rate while maintaining code quality standards.

EDUCATION

University of Houston - Downtown   Houston, TX
Bachelor of Business Administration - BBA
